Product highlights

Variety of beer brands
Personalize the appliance to your favourite beer brand with a variety of medallions to put on the handle. New medaillions will be available in the webshop.

Temperature, volume, freshness indication
The temperature indicator shows you when your beer is at the ideal drinking temperature of 3°C. The volume level indicator shows you how much beer is left in the keg. The beer freshness indicator shows you how long your beer will still keep it freshness.
